FYI. We wrote a one page summary of the monitoring plan in response to a request last night for material to prepare the Administrator for hearings.

Any update on the brief summary for the Administrator? Need to let Nitin know when to expect something.

Thanks

See #9 below. Need a general summary on where we see the conceptual model going. May be something that can be pulled and tweaked from the version coming out later. Need by 2pm tomorrow. Earlier would be better. Let me know.

Thanks

Subject: Document Needs

Reggie/Jim,

Just got out of the meeting with the Administrator and we need to track down several documents. I'm hoping we have most of these in the can, many may already be on the website. If not, let's discuss on the list to put something together. I'll handle the docs that I know are out there and there are a couple of others that I know Reggie is already tracking down. I tried to divide up the list but if you see something that should go elsewhere, just let me know.

We need to get these over to OCIR for inclusion in her hearing prep materials for COB tomorrow. If folks can get me what they can by 2pm tomorrow it would be much appreciated.

Thanks in advance.

N

Document Needs:

1. Superfund background/NPL listing process (1-2 page fact sheet) – Jim
2. Mine Act background – Nitin
3. Abandoned Mine 1-pager/fact sheet – Jim?
4. Internal Report – Nitin
5. RFP/Contractor WP – Nitin
6. Mountain Studies Institute Report – Reggie
7. San Juan County Report – Reggie
8. NN Request List – Nitin
9. Long Term Strategy Summary/1-pager – Reggie (I understand this won't be ready until early next week)
10. Timeline of when the plume reached various jurisdictions/points along the Animus/San Juan Rivers – Reggie
11. Navajo Council Press Release – Nitin
12. Jared's Letters – Nitin
13. Timeline of activities as they occur on-site – Nitin/Reggie
14. History of NPL activities related to this site both history and current activities – Jim

Specific Questions (related to OSWER):

1. Do we routinely develop a worst case scenario for these types of activities? If so, who

develops them? – Jim

2. Do we have a list of broader response numbers on the number of these types of mine clean-ups we do per year? What's the total ER numbers on average per year (this was in Mathy's testimony if I recall correctly)? – Reggie
